## Your Time Is Important

Learn Adobe Creative Suite 5 the fast and fun way

You can spend hours teaching yourself from books or videos, or searching through free training pages on the web. But how many computer books do you have on your bookshelf still unread? Make sure you get the job done, and have fun while you're doing it. Come to an instructor-led, hands-on class.

### Adobe authorized training classes

Rest assured you'll be working with experienced graphic arts professionals who know Adobe products thoroughly.

### Personal Attention

By adjusting our classes to the skill levels and goals of the people in each class, we make sure we meet your needs, not our own. Clients say having an instructor available to answer questions you may have or point out shortcuts and tips is way faster than self-study.

### Enjoyable Classes

No one cares how much an instructor knows, until they know how much the instructor cares. Training classes are most effective when they are interesting and fun. That's exactly what you'll find in these classes.
